

## CONSTRUCTION LAW

# PROVEN CONSTRUCTION ATTORNEYS

The Construction Law Practice group at HFM has decades of proven legal expertise, providing high-level counsel to a wide range of clients in the construction industry including:

- Public & Private Owners
- Design Professionals
- General Contractors
- Equipment & Material Suppliers
- Subcontractors
- Insurance Carriers & Sureties

Our primary focus is claim avoidance, but we also concentrate on evaluating disputes from both business and legal standpoints, positioning our clients for success and consistently seeking the best possible outcome. We work to provide cost-effective results that successfully address our client's needs across all areas of construction law.

**HFM's experience and expertise in construction law includes work in the following areas:**

- Competitive Bidding & Bid Protests
- Contracts, Extra Work, Change Orders and Time Extensions
- Delay, Disruption & Acceleration Claims

- Design Professional Errors & Omissions
- Insurance Policies & Coverage
- Progress & Retention Payments and Liquidated Damages
- Requests for Quotation & for Proposals
- Stop Notices, Mechanics' Liens, Payment & Performance Bonds
- Traditional & Alternative Project Delivery Systems

**Attorneys in HFM's Construction Law Practice have a wide breadth of experience working on different types of construction-related projects including the following:**

- Aviation Facilities
- Convention Centers
- Dam, Pipeline & Water Delivery Projects
- Hospitals & Medical Centers
- Manufacturing Facilities
- Power Plant Projects
