

ENVIRONMENTAL LAW

PROVEN ENVIRONMENTAL LAW ATTORNEYS

HFM's Environmental Law Practice Group has proven experience handling a variety of environmental and land use challenges.

With a results-oriented approach, HFM attorneys aim to maximize environmentally beneficial results at the lowest cost possible to comply with regulatory and cleanup requirements.

Our environmental law experience includes handling complex environmental litigation involving damages, remediation and insurance and enforcement. We have also worked with clients on business and real estate transactions that involve substantial environmental liabilities. Our experience and expertise also includes judicial and administrative proceedings involving government regulatory agencies arising under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA, or the Superfund Act), California Environmental Quality Act (CEQA), and other California and Federal statutes and regulations.
